## SKILLS

- React
- Vue
- Nuxt
- Angular
- MongoDB
- SQL
- Express
- GraphQL
- HTML
- Tailwind
- CSS
- JavaScript
- Node
- Task automation
- Git collaboration
- Graphic Design
- UI/UX (Figma)
- CSS Animations

## EXPERIENCE

### FRONT END DEVELOPER 22SQUARED

JUNE 2022 – AUGUST 2022

- Passed all job tickets through QA testing without missing any sprint deadlines
- Built full codebase from start-to-finish for an integral internal project which received a perfect rating(100%) from Google Lighthouse analytics for performance, accessibility, and best practices within a 4 sprint time span
- Utilized Nuxt, Vue, and Tailwind technologies to build [builder.io](https://builder.io) CMS-compatible components to the UI/UX designer's specifications

### PRODUCTION MANAGER, ADVANCED COLOR IMAGING

2012 – 2022

- Implemented process improvements & developed automation scripts for production department to support a 40% work volume increase without hiring more personnel
- Digital print and production processing for over 450 jobs per month (~3-10 image files per job)
- 90% of graphic layout & design proofs approved within 1 revision cycle
- Configured industrial print management software for ease of training, greater throughput, and more consistent results.

## PROJECTS

- 22Square New Business Leave Behind – a Nuxt single page application meant to serve as a digital business card to “leave behind” after a first consultation. The site uses tasteful modern animations and UI effects to make an impression on customers to the ad agency that are considering hiring the agency. The site also features components coded to plug into the [builder.io](https://builder.io) headless CMS, and received a 100% performance score in Lighthouse Benchmarks. <https://whatsnew.22squared.com/>
- DevDr – A React web application utilizing password encryption, JWT session authorization, and a MongoDB database accessed with GraphQL APIs to give users the tools to build their own web projects with professional and polished UI/UX themes. <https://dev-doctor.herokuapp.com/>
- Overdrive Automotive – a SQL database website using an Express REST API that allows users to learn about automotive skills with detailed lessons, illustrations, and quizzes. All lesson content and artwork used in the project is original. <https://overdrive-automotive-school.herokuapp.com/>

## EDUCATION

- Georgia Tech Full Stack Web Development Program, 2022
- Southern Polytechnic State University - Mechanical Engineering Technologies, 2011
